

Thank you for the opportunity to speak on this subject. It is a great honor to have AIR1 broadcasting here locally. For my wife and I and our three children AIR1 is the only choice for Christian rock. In my personal life alone this station helped restore my marriage and lifted me up countless times. If it were displaced it would have a negative effect on my family and the community we live in. I also drive a church bus route and encourage all the children to listen. They would then have a chance to call and talk to counselors about problems that they might not feel free to talk about with me. Thank you for your time.
